REACH (EC/1907/2006)

## Compliance Statement

---

### Registration, Evaluation, Authorisation and restriction of Chemicals (REACH) European Union regulation (EC) 1907/2006

Coda Systems Limited confirms that since lead has been listed as a SVHC (CAS number 7439-92-1), some products do contain lead above 0.1% weight by weight (w/w). The listing of lead as a SVHC is not a ban of lead, but rather an obligation to communicate this along the supply chain. This statement is the result of Coda Systems Limited fulfilling this obligation.

To the best of our knowledge based on the information supplied by our suppliers most of our products do not contain any other substance of very high concern contained in the candidate list of substances (version: January 2024 - 240 substances) containing more than 0.1% weight by weight (w/w).

When products placed on the market by Coda Systems Limited are used as intended, no substances are intentionally released nor do the substances contained themselves pose any threat.

I can confirm that Coda Systems Limited fully understands our obligations regarding the REACH legislation and the need to continually monitor the regularly updated and issued list of SVHC's.

Ian Carne  
Chief Operating Officer
